229 North St.
Bedford, PA 15522

Mr. Wilson,

On behalf of Gwynedd Friends Meeting, I want to send this note of gratitude for the service that Garrett Washington provided for the repair of our meeting sewer lateral. During repairs to a six inch 315' lateral from our property to the main collection system, we discovered a crack in the lateral under Route 202/ Dekalb Pike. It was recommended that we seek a contractor who could install a sock liner to repair the lateral. I was given PPI as a company who could provide that service, and was given the name of Garrett Washinton as the person from your company to contact.

Mr. Washington was a pleasure to work with. He returned my calls promptly and gave the meeting a written estimate within a week's time. Prior to finalizing my acceptance of his proposal, we met on site to confirm that the measurements, etc., were correct. Based on this meeting, Mr. Washinton amended the proposal by approximately \$4,000 in savings in our favor for the project. Needless to say, this was a blessing for our meeting which depends on member contributions for the maintenance of the property.

Mr. Washington is a credit to your company. His professionalism, honesty, and excellent communication skills were greatly appreciated, and I would gladly recommend him and your company in the future.

Thank you for your service.

In gratitude,

Bill Evans
Co-Clerk, Property Committee
