Regarding: Performance Liner Inversion System

To Whom It May Concern:

We have used the Performance Liner inversion system as an intricate part of our sewer rehabilitation program over the past few years. Our experience is very positive. This super tough product gives the structural integrity to failing pipe while preventing the extra cost of surface restoration.

Performance Pipelining, Inc. crews are easy to work with and competent, keeping our rehabilitation program cost effective.

Yours truly,

Thomas E. Albright
Director of Public Works
